

Coronavirus – we're here to help

Dear Valued Customer,

Skyline Credit Ride has been working with a number of customers as they develop and evolve their plans regarding the Coronavirus. We are reaching out to you as you are a valued customer, to let you know that Skyline can help with your contingency plans.

We'll work with you to develop a specialized program to fit your needs. Here are a few of the services that we are providing to our clients:

- Dedicated vehicles to transport employees between home and office, or to provide shuttle service between locations. The vehicles are cleaned between trips.
- Dedicated vehicles to provide hourly services to pick up and drop off your people throughout the day, regardless of location.
- Messenger services to move items such as documents, computer equipment or any other critical cargo.
- Skyline provides alternate transportation to Acela, LIRR, NJ Transit or MTA Transit Subways, Buses and Trains.
- Providing 24/7 transportation as companies split shifts to isolate employee contact.

Skyline has been proactive in the ground transportation industry for decades. We have 350 available vehicles and every driver has been educated in proper cleaning techniques to keep our customers as safe as possible. We are also following CDC recommendations by encouraging our drivers to go to testing and/or quarantine should that be needed (none as of yet, thank goodness!).

- We have instructed all our drivers to keep disinfecting wipes and Purell in their vehicle, for passengers use. All Drivers have been trained to wipe down their vehicle after each trip, including:
 - Outside door handles.
 - Inside door handles.
 - Door & Window control buttons.
 - Headrest area.
 - Seatbelt buckles.
 - Additionally, we have instructed our Drivers to remove any reading materials such as magazines, newspapers and any other reading material that may be prone to germ retention form the passenger area.
- Our cars generally take 4-5 passengers a day, compared to 10 to 15 passengers taken by Uber or Yellow Cab. Skyline offers a much safer and more controlled environment.

Please let us know if we can be helpful. Some of the above information may have directly addressed your concerns, but if you have any questions we encourage you to contact us. Skyline is ready and able to customize a special transportation program to meet your specific needs.

Sincerely:

George Potter

President Skyline Credit Ride, Inc.
